

The diagram shows a circular sticker template. It consists of two concentric circles. The inner circle is a solid magenta line, representing the visible area of the sticker. The outer circle is a dotted cyan line, representing the total size of the sticker including the bleed area. The space between the two circles is the bleed area.

88mm Sticker

Area inside magenta line is the visible area

Area outside magenta line is the bleed area

Please provide your artwork with at least 3mm of bleed
